

Technical Data sheet for Enviro Grit Hand Cleaner

Enviro Grit Hand Cleaner

Description

Environmentally friendly, biodegradable hand cleaner with special mild abrasives for heavier hand cleaning. Enviro Grit Hand Cleaner is solvent free with pure natural ingredients containing no petroleum distillates or solvents that promote dermatitis through the removal of natural oils from user's hands.

Enviro Grit Hand Cleaner contains many natural ingredients combined with skin conditioners that have antibacterial and antifungal properties that assist with its excellent cleaning properties.

Areas of use

Industry, mining, workshops, garages, printing works, gardening outlets and any areas where a premium hand cleaner is required with a user friendly formulation is required.

Directions

Apply a small amount of Enviro Grit Hand Cleaner to the hands and work in until soil is dissolved. Rinse thoroughly with water or wipe off with a clean cloth or paper towel.
